# Product Introduction

## Introduction

---

The Yacht Cam keyboard controller is a full-function system. With features of ergonomic design, multi-function, high reliability and easy operation, it is a perfect controller for maritime and so on.

## Features

---

- IP66 waterproof;
- RS-485 control;
- 3-axis joystick, ergonomic design and excellent finishing;
- High brightness OLED display;
- Dual backlight buttons;
- Support various baud rate and protocols;
- Able to control multi devices with different addresses;
- Compact design, easy to install.

## Packing List

---

**(1) Keyboard Controller**

**(1) Sun-protective Cover**

**(1) Power Adapter**

## Technical Data

---

Interface	RS-485
Protocol	PELCO-D, PELCO-P
Baud Rate	2400bps, 4800bps, 9600bps, 19200bps
Address	0~255
Joystick	3-axis, speed adjustable
Display	OLED
Power	POE, DC10.8~28V
Power Consumption	<1.6W
Working Temperature	0°C~+40°C
Storage Temperature	-20°C~+50°C
Relative Humidity	≤90% (non-condensation)
Dimensions	141mm(L)*90mm(W)*117mm(H)
Net Weight	0.8kg

## Parts and View

### ①POWER

This button is used to power on/off the controller

Operations: long press **POWER** to turn on / off the controller.

### ②MENU

This button is used to enter menu of the controller.

Operation: short Press **MENU** button to enter controller menu.
